Minerals Inspection Report

Report Date: May 18, 2015

Reviewed

[Signature]

Mine Name: Lynn Springs Quarry	Permit Number: M/003/0025	Mine Status: Suspended
Operator Name: Bonneville Quarries, Inc (William Bown)	Inspection Date: 05/12/2015	Permit Fees: Delinquent
Inspector(s): Lynn Kunzler	Inspection Time: 11:30 am	Bond Amount: \$21,700
Attendee(s): Heidie Torrealday, Jeff Gabardi (USFS)	Weather:	Bond Escalation: 6/28/2013
Inspection Purpose: Routine Inspection		Prior Inspection: 6/12/2014

Conclusions and Recommendations

Elements of Inspection	Evaluated & Commented	Enforcement
1. <i>Permits, Revisions, Transfer, Bonds</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
The Reclamation surety is past due for escalation. This has been delayed due to the operator indicating he would be revising the NOI. Since this has not been done as of today, The Division will prepare a revised cost estimate for the site and allow the operator a reasonable time to make adjustments. The permit for this site is suspended until annual permit fees are remitted. Since the operator was not present, a note was left with an employee to pass on to the operator that the fee needed to be remitted by today or enforcement action would be taken. As for now, no activity except reclamation work may be performed until the past due fees are remitted. Cessation Order # MC-2015-17-05 is issued for conducting mining operations under a suspended permit (failure to remit annual permit fees)		
2. <i>Public Safety (shafts, adits, trash, signs, highwalls)</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Part of the activity at the site was backfilling against the highwall. This highwall had a small overhang as well as loose material above the highwall. Since this is actively being abated, no enforcement action will be take at this time (if this work does not continue until completed, enforcement action may be taken at a later date).		
3. <i>Protection of Drainages/Erosion Control</i>	<input type="checkbox"/>	<input type="checkbox"/>
4. <i>Deleterious Material</i>	<input type="checkbox"/>	<input type="checkbox"/>
5. <i>Roads (maintenance, surfacing, dust control, safety)</i>	<input type="checkbox"/>	<input type="checkbox"/>
6. <i>Reclamation</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
There was a small area to the north side of the quarry that is on BLM property, and outside the permitted disturbance. This area was also being actively reclaimed, so inforcement action was not taken (if this work does not continue until completed, enforcement action may be taken at a later date).		
7. <i>Backfilling/Grading (trenches, pits, roads, highwalls, shafts)</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Refer to comment #'s 2 and 6 above.		
8. <i>Soils</i>	<input type="checkbox"/>	<input type="checkbox"/>
9. <i>Revegetation</i>	<input type="checkbox"/>	<input type="checkbox"/>
10. <i>Other</i>	<input type="checkbox"/>	<input type="checkbox"/>
